

DPZ Venus Super Acid Line 1,5l

The pump sprayer Venus Super HD Acid Line offers you a capacity of 2L and is very easy to fill from the outside. The product can not only produce a fine spray mist, but also a solid jet that hits directly the point of use. The Acid Line pump sprayer in the color red is especially suitable for acidic products. Due to the transparent display on the outside, you can always see how much content is still inside. This allows you to refill acidic products in time before they run out. The practical handle makes it easy to distribute the liquid. The nozzle at the front is adjustable between a fine spray mist and a spot jet.
